Modular feedmill solutions

Modular Feed Mill

JPT-Industria has launched a innovative way of building animal feed manufacturing plants.

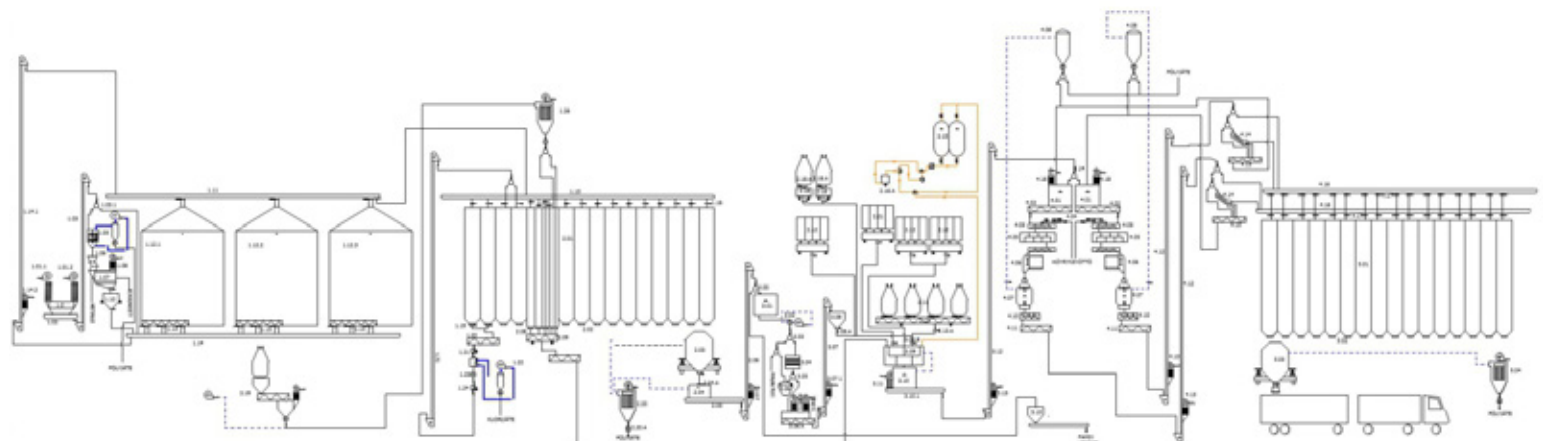

Modular feed mill is a turnkey delivery and the fastest way from drawing board to producing animal feeds.

Modular feed mill is always customized for the customers needs and can be expanded when the capacity needs to increase.

The process is pre-installed in containerized modules, that reduces 80% of the installation time on site.

Modular feed mills are fully computer controlled and automated. We use the best available technologies to reduce the energy cost, increase the reliability, hygiene and usability.

JPT Module feed manufacturing plants are suitable for the production of various types of feed for domestic animals and fishes.

Benefits:

The fastest way to start commercial feed production.

Turnkey delivery includes installation, start-up and training

Shortest implementation time on the market: Building simultaneously the storage silos, dosing and product silos on site and the process at JPT's premises.

All devices pre-assembled before shipment.

Complete package including:

Frame and walls, all electrical and compressed air systems, stairs, service platforms and guardrails.

Minimal building costs.

No buildings needed during or after the installation.

Improved hygiene.

During the assembly, shipment and installation, all the devices are protected from the weather.

Minimal risks

No extra costs

Accurate schedule

Safety on site

Quick and easy
installation

High level
of
automation

Adjustable
for various areas
of production

“Complete turnkey-delivery was the deciding factor when choosing the supplier. After specifying the requirements together with the supplier, we were able to start-up well planned feed mill, suitable for our production, in short period. JPT-Industria's Modular Feed Factory is functional, reliable and compact package.”

Juha Forsbom
CEO
Agrox Oy

JPT-Industria Oy provides solutions to the manufacture of compound feed, aqua feed, pet food, premixes and concentrates. We have over 30 years of experience in the feed industry processes.

We have specialized in modular structures with different capacities for feed mills and for processing biomass from agriculture to industry.

Modular construction is the fastest, cost-effective and safest way to start production. Equipment's are installed and tested at our workshop in Finland before shipment, so start-up and commissioning is quick.

Specialty areas
COMPOUND FEED, AQUA FEED, PET FOOD,
PREMIXES AND CONCENTRATES
